

For a more efficient  
and effective  
Public Administration  
closer to the territories  
citizens and businesses

**GOVERNANCE  
E CAPACITÀ  
ISTITUZIONALE  
2014-2020**

The National Operational Programme on Governance and Institutional Capacity is one of the 2014-2020 cohesion policy instruments funded by the European Union under the European Structural and Investment Funds. With an overall financial envelope of over € 780 million, it contributes to the objectives of the EU Strategy for smart, sustainable and inclusive growth through actions which reinforce the PA's institutional and administrative capacity. The NOP Governance accompanies the national public administration reform processes through the development of competences, innovation and cooperation with local administrations for the sharing of models and solutions. It supports the simplification and digitalisation of processes and services to citizens and businesses and promotes access and civic participation through the dissemination of public data. The strategy of the Programme includes support for a new governance model in public investment programmes, for a more effective coordination between the different levels of government in the implementation of interventions and a more efficient use of resources.

#### ORGANISATIONAL STRUCTURE

Agency for territorial cohesion  
*Managing Authority - Certifying Authority*

Ministry of Economy and Finance  
*Audit Authority*

Department of public administration  
Ministry of Justice  
*Intermediate Bodies*
